

Local Government Fund Balances and Expenditures

September 10, 2002

**Douglas B. Roberts, State Treasurer
Mark P. Haas, Director
Office of Revenue and Tax Analysis
Michigan Department of Treasury**

Local Governments Have Large Rainy Day Funds Despite Strong Spending Growth

1. Local government spending increased 22 percent from FY 1996 to 2001, compared to a 15 percent increase in the Detroit CPI and a 15 percent increase in state government GF-GP spending.
2. Local governments had unreserved fund balances of \$1.85 billion or about 25 percent of their annual expenditures at the end of FY 2001 compared to fund balances of \$1.09 billion or about 19 percent of their annual expenditure in FY 1996. This compares to state government's rainy day fund balance of \$994 million or 4.6 percent of GF expenditures at the end of FY 2001.
3. Over 587 local governments had fund balances greater than their 2001 GF spending. Over 982 local governments have fund balances in excess of 50 percent of their 2001 GF expenditures.
4. Local government general fund balances increased 58 percent from 1996 to 2001 compared to a 14 percent decline in the state government's rainy day fund balance.
5. The local government spending and fund balance increases were made possible by strong growth in their primary funding sources. Property taxable values grew 32 percent from 1995 to 2000 and local property tax collection grew 33 percent. State revenue sharing to local governments grew 23 percent compared to inflation of 15 percent from 1996 to 2001.

Local Government Fund Balances and Expenditures
Data Collection Process
September 10, 2002

Most local governments are required to provide information on their financial situation annual to the state. Some of the smaller local governments are only required to file every other year. These annual financial statements are the basis for our information on local government fund balances and expenditures. These data were collected from three principal sources:

1. Annual report on local government finances (Treasury Form F-65) for fiscal year 2001 filed in 2001.
2. Comprehensive Annual Financial Reports for local governments that did not file their F-65 report
3. Contacts with local governments that did not provide either of the above or where their information was materially inconsistent between the two reports.

Data was available for all but 3 of the 1,883 local units. Please note that the number of local units is slightly greater than the number of cities, villages, townships and counties as some cities, villages and townships are located in two counties.

In most cases, the data included in the analysis are the figures reported by the local unit. In a few cases, the analysts spotted inconsistencies and followed up with the local unit to clarify the correct figure. This double check was not performed for the vast majority of local governmental units reporting.

This report was originally released on June 19, 2002 with data supplied from local governments. After posting the data on the web page, some local governments noted that the data they supplied us was incorrect and provided revised information. Thus, the tables in this report were updated to reflect those revisions. The most notable change was for the City of Detroit. None of the conclusions or summary tables was affected by the revised data.

Table 2
General Fund Expenditures and General Fund Balances for Local Units
(Sorted by County/2001 Fund Balances as % of Expenditures)

Revshare Code	Local Unit Name	Unit Type	County	General Fund Expenditures			General Fund Balances			Fund Balances as a % of Expend		
				FY1996	FY2001	% Chg	FY1996	FY2001	% Chg	1996	2001	Chg
Grand Totals:				\$5,651,437,210	\$7,350,327,073	30.1	\$1,094,550,746	\$1,814,601,663	65.8	19.4	24.7	5.3

Detroit CPI (Fiscal Year) increased from 151.6 (FY96) to 173.8 (FY2001) a 14.6 % increase.

Source: Local Government Annual Financial Reports

Notes:

1. Includes units which filed Local Government Annual Financial Reports in both FY96 and FY01
2. The population figures are 1996 and 2000 census population. 2001 population has not been released yet.
3. County and Report population totals are less than county totals because totals reflect units on the report.
